**DEVANG PATEL INSTITUTE OF ADVANCE TECHNOLOGY AND
RESEARCH**

WEEKLY REPORT - 1

Project Title: SkillLink	
Student ID: 23DCS054	Semester: 6th
From Date: 15/12/2025	To Date: 21/12/2025

Work done in last week (Attach supporting Documents):

1. Studied and understood the project domain of SkillLink to clearly define the problem statement and objectives.
2. Collected and reviewed relevant data, articles, and references related to the domain to gain practical and theoretical knowledge.
3. Explored existing software systems and applications related to the domain to understand current solutions, features, and limitations.
4. Analyzed existing systems to identify necessary features, unnecessary components, and possible improvements for the proposed project.
5. Finalized the overall project structure and development roadmap for upcoming weeks.

Plans for next week:

1. Design the database schema and finalize tables required for the project.
2. Create UI wireframes and basic UI design for major screens of the application.
3. Start implementing Login and Signup functionality for both backend and frontend.
4. Set up the backend environment and connect it with the database.
